

FIND YOUR RING SIZE

choose from our 3 accurate measuring techniques

..~.. the string test

- o cut a small piece of string or thread from a spool.
- o to measure, wrap it snugly around your finger for an accurate measurement.

tip: don't wrap it too tight, it should feel comfortable!

It also helps to ask a friend to help you measure.

- o compare your measurement with our sizing chart.

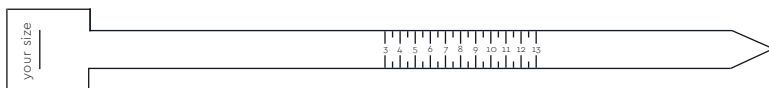

the paper test

- o print this sheet and cut out the paper ring sizer found below.
- o create a slit where it reads "your size".
- o this sizer works like a belt, slide the pointed end through the slit to form a ring shape.
- o slip the sizer onto your finger and adjust to a comfortable fit.

tip: the sizer should slide on easily and be snug to take off over the knuckle.

- o when the best fit is achieved, read the size indicated by the "your size" slit.

tip: be careful not to wrap the paper too tight, aim for a comfortable, snug fit.

buying for a loved one

- o print the ring size chart.
- o sneak away with a ring that they wear all the time.

tip: make sure they wear the ring on the same finger you are shopping for.

- o place the ring on top of each circle until you find a perfect match.
- o the match should perfectly fit the inside of the ring.
- o measure twice!
